Subject: Todd Road Jail - Security Caulking Follow-Up

Good morning Rocky,

Yesterday I sent you a voicemail requesting a quote to install Pecora's pick resistance security caulk on the Todd Road Jail project. If you are interested, please review the following items necessary to complete pricing:

- Pecora security caulking product (approved)
- Pick resistant type in lieu of pick proof
- Roughly 9500 LF of caulking
- Hollow metal door frames (inside only)
- Expansion joints
- Prevailing wage project
- Certified payroll
- Anticipated start date: 3/28/22

If you need any additional information, feel free to contact me at your earliest convenience.

Thanks,

Troy Rollins

Sounds like a plan.

In other news, I received a text message from Rocky this afternoon stating that he could not make today's meeting in time due to a previous meeting that ran over. He requested some photos of the existing condition so he could send over a price. Do we have any photos?

Thanks,

Troy Rollins

Thanks Troy,

Let's put a hold on searching for the masonry caps for right now. We wouldn't have imagined but they're proving difficult to find and if that's the case, they're probably plenty expensive.

We're going to try and create something here onsite.

Subject: Todd Road Jail Updates

Hello Joe,

I was able to complete the following submittal log items in Procore per our conversation:

- Assign J. Donovan as submittal manager
- Delete all of Richard Fabian's submittals
- Hold on fire sprinkler material and shop drawings (close out both once we receive feedback)

- Close cold-formed metal framing submittal (under drywall spec section)

Also, please see status update on radius masonry cap scope:

- Rose Masonry: left Rick Rose a voicemail, will follow-up tomorrow morning
- Leeward Tile: left Tom (estimator) a voicemail, will follow-up tomorrow morning
- Smith Paving: spoke to Jasmine who informed me that they will not be able to proceed
- Villafana Engineering & Construction: left a voicemail, will follow-up tomorrow morning
- Diaz Randy & Sons Masonry: left a voicemail, will follow-up tomorrow morning
- Stoney Masonry: spoke to Rod Hicks and received a few options

Do you have any information on the masonry contractors who also put a bid in for this project? I could contact those guys and if we could come up with a solution.

Thanks,

Troy Rollins

Subject: Contra Costa - West County Re-entry Treatment and Housing Facility Project Bid
Attachments: Contra Costa - Prequal Advert.pdf; Contra Costa - Subcontractor Qualification Survey.pdf

Good morning Potential Bidders,

Please allow this email to serve as an invitation to review, complete and submit the attached prequalification forms to bid the upcoming West County Re-entry Treatment and Housing Facility Project in Richmond, CA slated to begin October 2022 to June 2024 (tentative). The overall disadvantage business enterprise goals for this project are 25.7% MBE and 6.9% WBE. If anyone is interested in this project and plan on completing both forms attached, please complete, and submit each form by April 15th, 2022. We plan to issue construction documents and begin the bid solicitation process upon review and approval of all prequalification forms. In the meantime, feel free to contact me via email or phone if you have any questions, comments, or concerns regarding either form attached.

Regards,

Troy Rollins

Troy,

Here is the final Schedule of Values as well as the worksheet used to create it. Submit the PDF for approval. Look over the worksheet. You'll notice the tabs on the bottom. We want translate the line items in our Pay application SOV to the phased line items we'll use on our cost report.

The proposal Modification spreadsheet is where some of the base numbers on the SOV came from. My notes are in the column next to the respective line item on my spreadsheet.

[EXTERNAL] This email has been sent from an external source. Beware of impersonation if the sender is internal to the company.

Troy,

These are the items that I have found that were added on the drawings:

- PCO2 – 16 Avigilon ligature free cameras for all cells in Housing Unit 1 are not on the drawings
- Exterior Cameras are now multimerger cameras
- 1535 Sub dayroom in HU 1 has been added (2 intercoms & 1 controlled door)
- Door 1238C & 2 intercoms have been added
- Door 1308 & intercom have been added
- Door 1207 & intercom have been added
- Intercom added to Door 1141A
- Door 1117B & intercom have been added
- 1020 Officer Station REX added
- C136 added to 1048 Vocational Classroom
- Intercom added at Door 1083B
- Pedestal & Intercom added at Door 1063A.1
- Door 1068B now controlled
- Elevator E-001 added with a camera & intercom

- Are (2) multimedters being added in each dayroom?

Let me know if you find anything additional.

Thanks,

Troy,

We are trying to get a call in front of the SFM to verify our approach, then we still need to talk through stuff with Vanir. If we are unable to get the bid drawings from DLR early next week, we may need to push the bid start. We won't know until we have these conversations. (Dan, we discussed in the team meeting this morning – we aren't forcing everyone to print 3/20 if we don't have an answer on titleblocks and packaging).

We are likely pulling the DCD permit as well, but Ron will need to be part of that discussion with DCD.

So basically, we are working on this but no news yet.

Subject: WRTH - OSFM Submittals

Team – now that we are considering pulling out our phase I submittal to the SFM and resubmitting both phases simultaneously, I have a couple items below I need direction on:

- Since Vanir has already paid for the phase I permit application, how should we handle our phase I DCD permit? Do we need to have a quick meeting with Vanir to discuss?
- If the phase I drawings are pulled from the SFM's bin, what official set of documents will we use to bid to the subcontractors?
- If we do not have an official set of documents to bid out to the subcontractors, how does this affect our bid schedule?

Note, as of now, I am proceeding as if nothing has changed. Just thought we may want to get a plan together internally.

Thanks,

Troy Rollins

Subject: WRTH - Open Items
Attachments: Construction Waste Management CalGreen for BICO23-002308_pdf version; 32 31 13 Chain Link Fences, Gates, and Security.doc

Good morning, Joe – please advise items below when you get a chance:

- Delivery date of job site trailers
- Installation date of internet/wifi account for job site trailers
- Start date of web cam vendor
- Delivery date of temporary toilets
- Status of dumpster hauler:
 - o we need this to complete the attached CalGreen waste management form which ties into the DCD building permit.
- Temporary fencing start date
 - o do you have any comments on the revised fencing subcontract? (I am going to add the (2) gates and surrounding fencing at ramps and women's building)
- Can we purchase the pype software for submittals? If so, when can we start?
- Who will be responsible for scheduling pre-installation meetings with Goebel and CCE?
- When did we want to start getting pricing for PCO's 004, 005, 011, 012, 014, 015, 016 (I believe CCE is working on 016)?
- Phone calls: which bid package is each individual responsible for? Ex: Troy – Structural Steel, Daniel – Commercial Doors, Frames, and Hardware
- Who do we want to purchase the elevator pit sump covers and waterproofing? (These are the only scope items in phase I that is unaccounted for)

Aside from the obvious permits (SFM, DCD, PG&E Gas and Electric), these items should put us in a good position to get the job rolling. Feel free to add any items I missed.

Thanks,

Troy Rollins

Troy,

Are these doors going to need intercoms as well?

Thanks,

Troy,

I did have a chance to review and a couple of questions:

- How many additional doors would be needed? (2 doors)
- Do we know the door types? (We do not have a spec on the doors. All we know is they will be detention rated with card reader access)

The description was kind of vague, so I wasn't exactly sure what to price.

Thanks,

Ryan Wenig | Project Manager

Good afternoon, Ryan – can you please review the attached PCO and submit a proposal with backup to:

-furnish and install controls for new, sub-day room detention-controlled door (raceways provided by CCE)
-furnish and install controls for new corridor detention-controlled door (raceways provided by CCE)

Feel free to advise any questions you may have.
